## Welcome to Vinay Engineering Company

Vinay Engineering Co, Mumbai, established in the year 2000, is among the prominent manufacturers and exporters of a wide range of Precision Engineering Products. Our offered product range comprises of Automotive Fasteners, Industrial Valves & Ferrule Fittings and Sheet Metal Components. These engineering products are manufactured from high-quality stainless steel, which is procured from trusted vendors. Available to us at highly affordable market prices, these products are widely demanded in the market for their optimum performance and low maintenance. As per the requirements of our valuable customers, these engineered products can be custom designed. The offered engineering products find wide application in different industries such as petrochemical, refineries, chemical, and power.

Due to the sincere efforts of our team of professionals, we have been able to manufacture and supply high-quality engineering products in compliance with the industry set standards. The quality of our product range is checked stringently by our team of quality controllers. Due to our well connected and vast distribution network, we have gained huge clientele across the world. Some of our reputed customers are Lineth Exports, Kundan Industries Limited and Akvlo Instrument Private Limited.

## Why Us?

 **Customized Solutions** We provide customized solutions as per the demands of the customers. We work in close coordination with our customer to understand their requirements and deliver products accordingly. We can customize fasteners on non-standard sizes, thread pitches, and coatings.

 **High-Quality Products** We are committed to providing high-quality products that not only meet but exceed the expectations of the customers. The products are thoroughly tested on certain parameters to ensure compliance with international quality standards.

 **Experienced Team** Our team of prolific individuals is the reason behind our sustained growth since inception. They possess deep knowledge and a passion for excellence. The company carefully selects them and nurtures them through extensive training and development to make sure that they are up-to-date with the latest technologies and industry trends.

 **Extensive Product Portfolio** We maintain a large product portfolio to meet the demands of diverse industries, such as automotive, aerospace, construction, and others. Because of the large product, we are a one-stop-shop for all types of fasteners.

 **Competitive Pricing** Our products are priced very reasonably. Our competitive pricing is another attraction to the customers. The combination of good quality products along with competitive prices makes us a trusted choice for the customers.
